

Exercise #3a: Stakeholder Analysis Worksheet

Instructions: Refer to the reference document, entitled *Examples of Opioid Surveillance Stakeholders*, to review and consider the broad range of actual and potential stakeholders related to opioid surveillance. In the first column, list the opioid surveillance stakeholders that are most important to your own opioid surveillance efforts. In each of the next columns, answer the questions to enhance your understanding of each stakeholder.

Stakeholder <i>(List one stakeholder per row; an example is shown in first row)</i>	A. What are the opioid issues of most importance to this stakeholder?	B. Is the stakeholder a data provider, user, or both?	D. Do we have a point of contact within this stakeholder group? If so, who?	E. What are our next steps?
<i>State Hospital Association</i>	<i>Reducing opioid overdose encounters at hospitals across the state</i>	<i>Mainly a data provider, but might be interested in using data too</i>	<i>Yes, we've worked with J. Smith through work we are doing on Project X.</i>	<i>S. Jones will contact J. Smith at the hospital association to arrange a call or meeting</i>
